

ABOUT US

Why Outsource to a 3rd Party Logistics provider?

You need inventory in the right location to service your customers, but you don't need to own the facilities and equipment, manage the labor, or transport the product yourself. Outsourcing to EQ Logistics allows you to:

- Focus your efforts and your capital on your core competency
- Generate a better return on capital by lowering investments in expensive assets
- Lower your costs by taking advantages of our economies of scale
- Expense your company only for the capacity you use, not for inventory fluctuations or seasonal peaks, while adding immediate scalability to your logistics operations
- Improve customer service and gain our expertise in mid-west markets around Indiana, Michigan, Illinois and Ohio

We offer scalable public, dedicated, on demand warehousing with robust warehouse management systems and RF capabilities to meet all of your storage and 3PL needs.

TRANSPORT

Transportation Services

EQ Logistics offers transportation services with our fleet of company owned trucks and equipment.

- Curtainside Trailers
- Vans
- Flatbed Trailers
- Straight Trucks

EQ Logistics also offers logistics services for deliveries of all types.

- Volume shipping discounts established with all major common carriers.
- We have extensive knowledge of carriers of all kinds in our region, and can take advantage of freight consolidation opportunities.

Whether it is small parcel, LTL, truckload, flatbed, oversized, air or ocean, EQ Logistics can cost effectively deliver your products to your customer.

Value Added Services

When you partner with another company to move your product to market, you want to be confident that you are working with quality management and excellent problem solvers that understand how to meet and surpass your customer's expectations. That's who we are. That is why our customers ask us to provide so many value added services.

EQ Logistics provides container stuffing services for overseas shipping. We containerize and ship Recreational Vehicles and boats for local manufacturers. In conjunction with EQ Export Packing division, we can ship anything you need anywhere in the world.

Examples of value added services we currently provide:

- Cutting lumber to specific dimensions
- Packing Services, Crating Services, Container stuffing
- Kitting and light assembly

Facilities & Equipment

Our facilities are maintained at the highest standards in the industry.

- Our buildings are food grade facilities. We have never received anything less than an excellent audit report
- Buildings are heated, made of steel construction, and have high bay ceilings, sealed concrete floors, and sprinkler systems
- Rail facilities include warehouse docks and ground level sidings
- Racking systems include selective racks, drive-in racking, and cantilever racking
- Our secure properties are fenced and monitored by TYCO Securities for fire and burglary
- Industrial pest control services
- Warehouseman's legal liability insurance

EQ Logistics has handling equipment available for any type of inventory, from standard forks of varying lengths to paper clamp attachments, squeeze clamps, and carpet poles.

- Narrow-aisle reach trucks and Narrow-aisle sideloaders
- 25,000 pound capacity lift trucks
- Overhead cranes
- Along with EQ Machinery Movers, we have the handling capacity to lift 200,000 pounds.
